

18ct white gold diamond bombe ring

£1,850

Description

An 18ct white gold bombe ring set with a row of princess cut diamonds flanked by baguette cut diamonds

UK Ring Size: O

Bombe rings are ornate, dome-shaped rings known for their bold, rounded design that resembles the French dessert "bombe." Popular in vintage and antique jewellery, especially during the Victorian and Art Deco eras, these rings often feature a large central gemstone or a cluster of smaller stones.

Their elevated, convex shape makes them eye-catching statement pieces. Bombe rings are crafted from various metals like gold or platinum and can include intricate detailing or pavé settings. Today, they are cherished by collectors and fashion enthusiasts for their distinctive silhouette, elegance, and timeless appeal, blending historical craftsmanship with contemporary style.
