

Mid-century silver picture frame

Sold

REF: 5965

Height: 14 cm (5.5")

Width: 9 cm (3.5")

Description

Mid-century engine-turned silver picture frame, Birmingham 1954.

The engine-turned pattern, also known as guilloché, is a decorative technique where intricate, repetitive designs are engraved into metal surfaces using a rotating engine tool. This method creates a textured, visually captivating pattern that enhances the aesthetic appeal of items like watch cases, jewelry, and fine pens, adding depth and elegance.
